MEMBER OF FEEDING PENNSYLVANIA

FIGHTING HUNGER • IMPROVING LIVES • STRENGTHENING COMMUNITIES

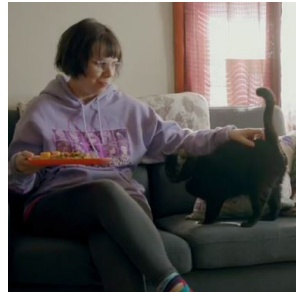

MEET KATELYN, WHO IS THRIVING BECAUSE OF YOUR SUPPORT!

When you give to the Central Pennsylvania Food Bank, you not only help us provide food, but also implement innovative solutions to better serve our neighbors facing hunger.

A new digital platform called *Service Insights* allows us to provide a variety of foods that meet dietary, nutritional, and cultural needs for our neighbors, like Katelyn.

Katelyn recently started visiting one of our partner agencies. After entering her information into *Service Insights*, the agency was able to help her apply for other benefits such as SNAP (food stamps) and heating assistance, in addition to providing fresh food that meets her personal dietary needs. Katelyn is allergic to both gluten and dairy, so the Food Bank sourced gluten free and dairy free food for her, which made a big difference for her health and her spirit.

“Not only do they have things I can eat, they remember what I can and can’t eat. They had a gluten free cake mix once and I almost cried. I was like ‘this is amazing!’ That’s so cool...to be seen like that.”

Working with our network partners around the region, *Service Insights* enables us to collect important information on things like food allergies, as well as identify other programmatic needs to better serve our neighbors. The Central Pennsylvania Food Bank is using this data to inform our food sourcing decisions, making every dollar you give even more impactful.

To be seen is something we all hope for. Thank you for your continued support of the Central Pennsylvania Food Bank.

Thank you!
